STAPLES

that was easy.

EPA's ENERGY STAR® for Superior Energy Efficiency Building Certification

Your store has been awarded the U.S. Environmental Protection Agency's (EPA's) prestigious ENERGY STAR Building Certification, the national symbol for protecting the environment through superior energy efficiency.

Your store has been awarded the U.S. Environmental Protection Agency's (EPA's) prestigious ENERGY STAR, the national symbol for protecting the environment through superior energy efficiency.

ENERGY STAR Stores

ENERGY STAR Products

Staples sells more than 600 ENERGY STAR products…These products represent the most energy efficient onitors, computers, printers, copiers, etc. that our customers can buy. They are the "best of the best" in energy efficiency.

ENERGY STAR Distribution Centers

The products shipped to your store were sent from an ENERGY STAR Distribution Center. Staples energy efficiency is through the supply chain, beginning with energy efficient building design, selling ENERGY STAR products, and transporting these products from an ENERGY STAR certified distribution center.

Maintaining Your ENERGY STAR Status

We need your help to maintain and improve your ENERGY STAR score. Your ENERGY STAR score is checked every month as new electric and gas bills are received and we must re-qualify for the award every 12 months.

- We build our stores with the latest energy efficient lighting and HVAC units to minimize the energy we use to light, heat and cool our facilities.
- We control our stores with the Novar control systems and motion sensors in office, bathrooms, and break rooms, making sure that lights and HVAC systems are properly shut off and set back in the evenings.
- We use ENERGY STAR copiers for our copy and print shop and ENERGY STAR computers for our offices, ensuring that we minimize the additional loads in your facility.
- We encourage a culture of energy efficiency for our associates to help us find and eliminate energy waste in our stores.

As you go about your day and notice energy being used, you can make a difference by turning off items that do not need to be on and don't forget to turn them off at the end of the day.

Turn off the lights, computers, copiers, printers, equipment and report broken sensors or equipment. You can make a difference by turning it off and help save the environment.
