## Windows

## Energy Efficiency Ratings

## Search Results

You can sort by clicking on the title of any column. To view full details of any model click on the "Brand" name. Refer to the [Legend](#) for a complete description of the abbreviations.

Search Criteria	
Product	<b>Windows</b>
Brand	<b>Gorell Window &amp; Doors</b>
Product Name	<b>All</b>
Model	<b>All</b>
Material	<b>All</b>
Style	<b>All</b>
Market	<b>All</b>
Zone	<b>All</b>

The ER (Energy Rating) format was changed to all positive numbers (dimensionless) in October, 2004 by CSA (Canadian Standards Association) to address consumer confusion over negative numbers. The older format had a mixture of negative and positive numbers (W/m<sup>2</sup>). In our listings, all ER numbers that appear in the older format are shown in **bold coloured type**. An approximate conversion to the new format can be made by adding 33 to these numbers.
