## Armor Impact Plus (AIP) Hurricane Windows for Replacement Applications

### OVERVIEW

Protect your loved ones by replacing your old windows with Armor Impact Plus windows specifically designed for replacement applications. These Level "C" windows prevent flying debris from penetrating them and opening up your home to catastrophic results. In addition to providing excellent protection against violent weather, AIP windows also make your home more comfortable and help lower your home energy costs. They'll give your home a beautiful, distinctive appearance and provide a myriad of other benefits.

### STANDARD FEATURES & BENEFITS

- **Tough Armor Impact Plus™ hurricane glass** keeps airborne debris from causing major damage to your home and seals the openings against wind and rain.
- **ENERGY STAR® qualified Low-E glass system** keeps your home energy bills low—and home comfort levels high.
- **Heavy-duty vinyl frames**—with all corners fused together at high temperatures for extraordinary strength—have as many as 14 separate internal chambers to provide excellent structural integrity and superior insulating values.
- **Two heavy-duty, push-button cam sweep locks**—with keepers mounted perpendicularly—hold sashes in place during violent weather and keep your home safer and more secure.
- **Specially compounded vinyl frames** feature an exceptionally smooth, clean surface that keeps your Gorell windows looking beautiful for decades.
- **PPG's patented Intercept® warm-edge spacer system** dramatically reduces energy loss.
- **Luxury automobile-type glazing** creates a super-tight seal to keep exterior air and moisture out.
- **Insulating foam wrap seal around the frame** reduces drafts between the window frame and voids in your walls.
- **Insulfil™ foam inside the window frame** even further improves the thermal properties of these windows.
- **Stainless steel constant force balance system** gives you fingertip window operation on double-hung models.
- **Easy-to-operate limiting latches** are designed for ventilation purposes, but also provide additional safety for families with young children.
- **Secure, easy-to-operate latches** on double-hung models provide practical "tilt in" operation to make window cleaning a breeze.
- **Durable one-piece sloped sill** provides excellent drainage and makes cleaning your double-hung windows remarkably easy.
- **Polypropylene multi-poly-fin weather stripping** helps to make your windows airtight.
- **Non-corrosive brass rollers** provide smooth, graceful gliding action on sliding window models.
- **On sliding windows, lift-out sashes**—with an "anti-lift" device that prevents sashes from being removed unless you want them to—provide quick access to the exterior for cleaning.
- **Finely detailed millwork design on the interior master frame** gives your windows the elegant look of handcrafted molding.
- **Specially engineered anti-drift design** keeps the top sash in place when you operate the bottom sash.

### OPTIONS FOR CUSTOMIZATION

- **Vinyl frame color and woodgrain finishes**—including Almond, Almond Opalwood, Tudor Brown, Golden Oak\*, Walnut\* and Cherry\*—allow you to choose the finish that best complements the look of your home.
- **Oriel-style design—on double-hung models**—provides an asymmetrical sash size configuration that gives you a larger viewing area in one of the sashes.
- **Internal grids** give your windows the look of divided lites. You never need to clean them because the grids are between the glass.
- **Obscure laminated glass pattern** offers privacy while allowing in light for a beautiful, distinctive appearance.
- **SolarShine™** keeps your windows cleaner longer and allows water to "sheet" off the glass instead of beading and water spotting.

\*With Soft white or Almond exterior.
