

431 Charmany Drive
Madison, WI 53719-9931

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus information, resources and financial incentives help to implement projects that otherwise would not get completed, or to complete projects sooner than scheduled. Our efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment and control the state's growing demand for electricity and natural gas. For more information call 800.762.7077 or visit focusonenergy.com.

There's nothing like seeing a project
THROUGH TO COMPLETION.

Especially when it improves your home's energy efficiency.

You've taken the first step by having a Home Performance with ENERGY STAR® energy evaluation. You already know about the Cash-Back Rewards. And you may even realize that the home improvements could drastically increase the energy efficiency of your home. *But did you know that we'll prove it?*

Make the improvements with a program contractor and once the work is complete, your consultant will come back to retest your home—at no charge.

Please contact your program consultant with any questions regarding the home improvement suggestions, or to learn more about your free post-test.
