### Staples celebrates Milestone of 500 Energy Star Buildings

It was a celebration that truly represented the excitement for Staples by reaching the milestone of 500 Energy Star Buildings. In 2010, CEO John Mahoney announced a goal for Staples to reach 500 buildings designated as ENERGY STAR certified by [Read More...](#)

## Energy Tip

For Most Americans daylight savings time ended with a "fall back" to standard time on November 3.

What you need to know for Energy Efficiency.

It will get dark earlier so make sure:

- There is proper lighting for safety
- There is proper lighting on so customers can tell the store is open.

It will get light earlier so make sure lights are programmed for the correct time:

- Lights in the store are in line with daylight hours.
- Check with landlords to make sure parking lot light is schedule for the correct time.
- Pylon signs are coming on at the correct time.
- Canopy lights on the walk ways are scheduled correctly.

And, check the following:

- Thermostats are set correct since it is starting to get cooler.
