# Energy Star® for Homes 2011, Or Energy Star® Version 3.0

*Presented By:* **Robby Schwarz, EnergyLogic**

This course is designed to prepare Builders, Architects, Designers and Trade Contractors for the changes in Energy Star for Homes.

Solidifying a brand identity is the main goal of the newest version of the Energy Star program scheduled to go into effect on January 1st 2011.

This new version of an old program ramps it up a notch or two or three or...

Approaching the house as a true integrated system, this program will be looking to gain efficiency from it all.

From HVAC commissioning to water management and indoor air quality, see how energy performance will be quantified by the new Energy Star program.

Don't miss the opportunity to learn more about ENERGY STAR, improve your sales and become the resource your customers need!

Robby Schwarz is a principal of EnergyLogic, Colorado's leading provider of home energy efficiency and conservation services. Working in partnership with builders and homeowners, EnergyLogic has had a role in improving over 10,000 homes in Colorado.

SPONSOR

**Governor's**  
**Energy Office**

## Wednesday SEPTEMBER 22 LUNCH AND LEARN at the HBA

Lunch Topic: Energy Star Version 3 Presentation

Class starts at 11:30 with check-in at 11:15

FYI: This is approximately a 3-4 hour training /presentation

**SPACE IS LIMITED SO SIGN UP TODAY – DON'T MISS OUT**

Registration closes on Tuesday, September 21 at noon

<http://www.cshba.com>

The cost of the class is \$15 and will include a box lunch.

**DO YOUR HOMES MEET OR EXCEED THE CURRENT ENERGY STAR STANDARDS? ARE YOU PREPARED TO MEET THE NEW ENERGY STAR VERSION 3 REQUIREMENTS?**

- This new version of an old program ramps it up a notch or two or three or... Approaching the house as a true integrated system this program will be looking to gain efficiency from it all. From HVAC commissioning to water management and indoor air quality see how energy performance will be quantified by the new Energy Star program
- Robby Schwarz with EnergyLogic will guide you through the evolution of this program and what it will take to earn the Energy Star Label under the new Version 3 guidelines.

---

Email sent to Builder Partners and Supers inviting them to attend a free ES V3 Event cohosted with the Northern Colorado ENERGY STAR Partnership.

---

**From:** Robby Schwarz  
**Sent:** Monday, October 11, 2010 10:09 AM  
**To:** Marnie Doyle; Tracy Larson  
**Subject:** Energy Star Version 3 Presentation and Training

Marnie can you send this out to builders. Tracy can you send this out to Suppers.

Thanks Robby

## Energy Star 2011 or Version 3 as some are calling it:

- Solidifying a brand identity is the main goal of the newest version of the Energy Star program scheduled to go into effect on January 1<sup>st</sup> 2011. This new version of an old program ramps it up a notch or two or three or... Approaching the house as a true integrated system this program will be looking to gain efficiency from it all. From HVAC commissioning to water management and indoor air quality see how energy performance will be quantified by the new Energy Star program.
- Tuesday, 10/26/2010
- Join Robby Schwarz from EnergyLogic as he discusses building energy-efficient homes as a true integrated system. The ENERGY STAR V3 guidelines are designed to increase efficiencies from HVAC commissioning to water management and indoor air quality to quantify the performance of the home.

This is an opportunity for new home builders and new home construction professionals to learn more about the new ENERGY STAR V3 guidelines and the time line in which they will be rolled out.

There is **no cost** to attend this training class. We ask that you register for the training class to help us in our event planning efforts. Thank you.

## Event Details:

8:30 a.m. to 11:30 a.m.

## NEW HOMES

Builder Newsletter | October 2010

## Upcoming Events Sponsored by Xcel Energy

### Colorado ENERGY STAR® Summit

The 2010 Colorado ENERGY STAR Summit & Awards Banquet will be held Dec. 8 and 9 at the Marriott Tech Center in Denver. This event, for Colorado energy efficiency professionals and builders offers direct access to the leading subject-matter experts with carefully crafted in-class educational sessions, hands-on experiences, and networking opportunities – not to mention a two-day tradeshow and product exhibition. To register or gather more information, contact Melody Butterfield at 800.344.4866 Ext. 29.

### Colorado Association of Realtors

Realtors from around the state will be gathering Oct. 17-19 to network and learn about ENERGY STAR Homes at Colorado Association of Realtors Convention in Colorado Springs. Xcel Energy is once again a proud sponsor of this event. Please visit: [www.coloradorealtors.com](http://www.coloradorealtors.com).

## ENERGY STAR® VERSION III UPDATE

In a few months the National ENERGY STAR Homes team will begin to train accredited HERS Trainer Providers on the requirements of ENERGY STAR Homes Version III (aka 2011). Please contact your rater for training and document requirements.

## YEAR-END REMINDER

Builders, please allow additional time for rebate processing for homes submitted for completion after Dec. 15, as we are allowing extra time for year-end processing. Please also note that due to the new rebate standard, your rebate check amounts may differ from what you've received in the past. Your rater can help to explain these new rebate amounts and what they mean for you.

## GEO Leads New Partnership to Add Energy and Green Features to Real Estate Listings

The energy-efficiency and renewable energy features of Colorado homes (including ENERGY STAR) will soon be factored into a home's valuation as part of a new initiative led by the Governor's Energy Office (GEO). The initiative, which includes leaders in the real estate, lending and appraising industries and energy efficient experts, will add energy and related "green" features to various multiple listing services (MLS) across the state.

The unfolding effort to add the "green" factor to real estate listings will make it easier for buyers, appraisers and lenders to understand a home's energy efficiency qualities, as well as reward sellers for the energy efficiency and renewable energy upgrades in which they've invested.

"This is an important step for our New Energy Economy. Homes that save energy, or produce

their own, need to be recognized for the value they provide the owner through utility bill savings and greater comfort," said GEO director Tom Plant. "We salute the diverse group of interests who have joined together to build, promote and grow this effort and once again put Colorado in a leadership position nationally."

## APPROVED RATERS FOR XCEL ENERGY COLORADO ENERGY STAR NEW HOMES PROGRAM

Below is the current list of approved HERS Raters who are involved in the ENERGY STAR Homes Program from Xcel Energy. These raters have completed the necessary paperwork and have gone through a security screening. To participate in this program, please contact: **Brian Albers** at **303-503-0896**.

### Approved Rating Companies

**Email sent to Rater Partners, encouraging them to apply for ENERGY STAR POY Awards.**

---

**From:** Glenn Pease  
**Sent:** Monday, November 22, 2010 1:47 PM  
**To:** Marnie Doyle  
**Subject:** Reminder: ENERGY STAR Awards Deadline December 3rd

\*\*\*\*\*

Hi all,

We wanted to encourage you all to apply for the 2011 ENERGY STAR Partner Awards and remind you that the deadline for application is fast approaching at December 3<sup>rd</sup>. As ENERGY STAR Partners you should be receiving notification for these applications from ENERGY STAR, but we thought it would be good to remind/inform you of this deadline. This is a great opportunity to showcase your success as raters and receive recognition for your success. Success to us does not necessarily mean volume or revenue, or number of employees. Success could mean that you provide a valuable service to your builder's/clients by helping them be successful themselves or it could mean that you have helped your community or industry in some meaningful way by providing valuable services. That model of success is what EnergyLogic is built on and in turn hope that you all are successful in your endeavors. ENERGY STAR seems to be recognizing this model of success as there have 3 categories of awards based on your volume, to give partners of all size and volume an opportunity to be recognized for their work. We encourage you to apply for the 2011 Awards by December 3<sup>rd</sup> by visiting the following website:

[http://www.energystar.gov/index.cfm?c=pt\\_awards.pt\\_es\\_awards](http://www.energystar.gov/index.cfm?c=pt_awards.pt_es_awards)

And of course we encourage you reach out to your builders to apply for recognition.

Thanks,

EnergyLogic Energy Professional Services Team
