

High-Performance Windows

World's  Best
Windows & Doors

What does your energy bill pay for?

* Other represents an array of household products, including stoves, ovens, microwaves, and small appliances. Individually, these products account for no more than about 2% of a household's energy bills.

Look at these savings!

Average monthly energy cost	Annual fuel costs	10 years with no increase in energy costs	10 years with 5% increase in energy costs	10 years with 10% increase in energy costs	40% Energy Savings	
					Based on 5% increase in energy costs	Based on 10% increase in energy costs
\$100	\$1,200	\$12,000	\$15,848	\$21,037	\$6,339	\$8,415

Dear XXXXXXX

Congratulations, this letter is to confirm your status as an accredited Gorell window and door dealer. As you know, Gorell is recognized for providing the finest windows and doors in the industry. We integrate state-of-the-art designs with fully computerized machinery and award-winning customer service, and provide you with the most product options in the industry.

The Gorell Windows Program is only offered to quality-oriented and customer-driven specialty dealers whose past performance we have investigated. In addition, we must be assured that our exclusive dealers use only tested and approved installation methods.

World's Best is fully qualified and has been named an accredited Gorell dealer. This company is qualified to offer, market and install the full line of premium-quality Gorell products.

Regards,

Tyson Schwartz

Vice President of Sales & Marketing

5300 Series Windows from World's Best:

Advanced technology and design ensure maximum performance.

1. **12/12 fusion welding** provides superior strength and makes the window perfectly square.
2. **Millwork design** on the interior master frame gives a look of handcrafted molding.
3. **Trim groove** at the frame perimeter easily accepts all exterior and interior trim accessories.
4. **Convenient ventilation limit locks** allow you to partially open the window for ventilation, and provide an extra element of safety for children.
5. **Heavy-duty cam sweep lock** pivots into the keeper and locks into place. The push button ensures you that it's secured.
6. **Easy-pull tilt latches** allow sashes to be tilted in with fingertip ease. The tilt-locking feature ensures that the sash will remain securely in its track while tilted—for carefree cleaning from within the comfort of your home.
7. **Integral lift rail** is extruded as part of the sash. This is a superior engineering design compared to rails that are screwed on as separate pieces, which loosen over time.

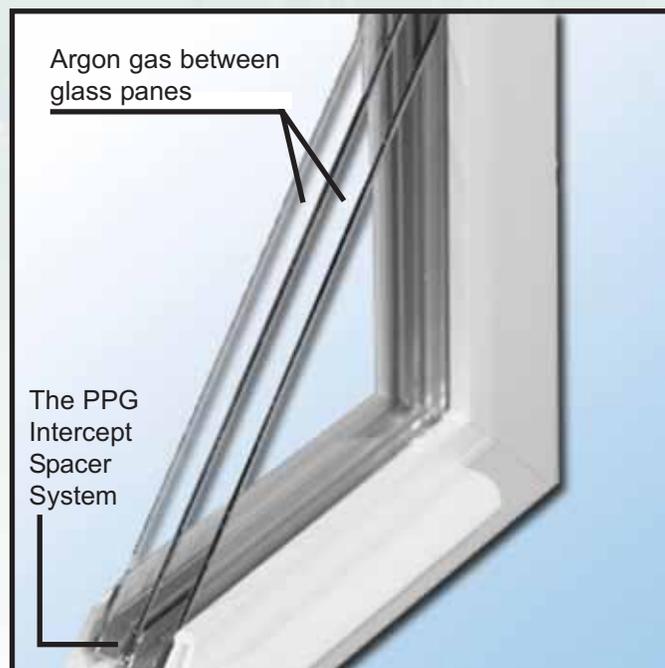

Armor Glass® Plus

The ultimate high-performance glass system

Features include:

- A tough polyvinyl butyral interlayer between two glass panes.
- Third glass pane incorporating SolarControl Plus® low-emissivity coating.
- Argon gas between the glass panes.

Armor Glass® Plus is the only choice for increased home security and improved energy efficiency. It will help protect your home—and family—against intrusion.

UltraMaster III™

The ultimate high-performance glass system

Features include:

- Two of Gorell's most advanced Low-E coatings—SolarControl Plus® and SolarControl Max™—applied to two glass surfaces.
- Krypton gas inserted between the glass panes.
- Super Spacer® spacer system.

UltraMaster III makes the glass in your windows as much as 11.4 times more efficient than standard single-glazed glass—it's an excellent choice for all climate areas of the country.

ENERGY STAR® qualified windows

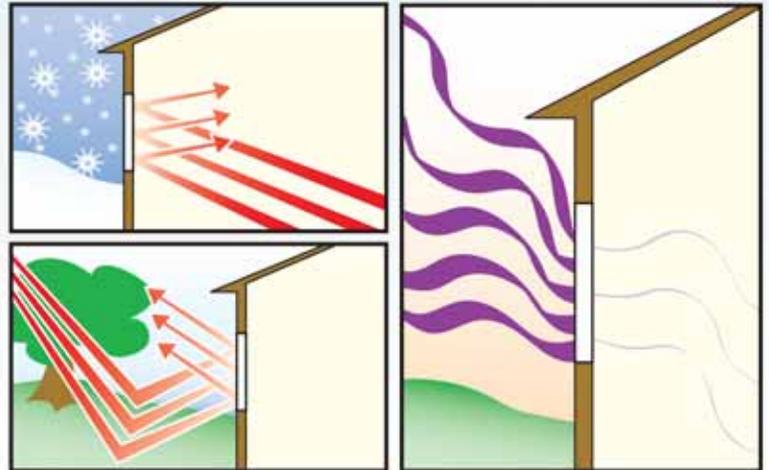

For exceptional energy savings—all year-round

5300 Series windows incorporating this high-performance glass have been tested by an independent lab to NFRC standards to qualify for the ENERGY STAR® label in one, two, three or four climate regions.

ENERGY STAR qualified windows offer:

- Greater home comfort.
- High energy efficiency (lower energy bills).
- Enhanced sound reduction.
- Improved security.
- Reduced maintenance.
- Ease of cleaning.
- Significant UV protection.

Gorell ENERGY STAR® labeled products save homeowners money because they keep heat inside in cold weather—and reflect heat away in warm weather. They also provide significant protection from UV rays.

World's  Best
Windows & Doors

Other glass options

- **UltraMaster III™** consists of three panes of glass, two of Gorell's most advanced Low-E coatings, the proprietary Super Spacer® system and krypton—the most effective gas fill available—between the panes.
- **Thermal Master III®** consists of triple-insulating glass, SolarControl Plus® Low-E coatings on two glass surfaces, the PPG Intercept® spacer system and krypton gas between the panes.
- **Energy Master® III** features SolarControl Plus® Low-E coatings on two glass surfaces, the PPG Intercept spacer system and argon gas between the panes.
- **Armor Glass® Plus** laminated glass system is comprised of two panes of glass that sandwich a tough polyvinyl butyral interlayer. A third pane is coated with SolarControl Plus® Low-E coating, and argon gas is inserted between the two glass components.
- **AC Master®** consists of double-insulating glass, SolarControl Plus® Low-E coating, the PPG Intercept spacer system and argon gas fill.

Gorell Windows & Doors—2004 to 2008 ENERGY STAR® Partner of the Year. 2006, 2007 & 2008 Sustained Excellence Award winner.

Gorell is America's ONLY window and door manufacturer to have been recognized as Partner of the Year by the U.S. Department of Energy and the U.S. Environmental Protection Agency for five years in a row. Gorell is also America's ONLY window manufacturer to have won the coveted ENERGY STAR® Sustained Excellence Award, and now we've done it THREE TIMES IN A ROW.

Gorell[®]
WINDOWS & DOORS

Special Recognition

Gorell Enterprises—2004 to 2008 ENERGY STAR® Partner of the Year and 2006, 2007 & 2008 Sustained Excellence Award winner, is proud to recognize

World's Best

for its strong commitment to providing homeowners with Gorell energy-efficient, cost-saving ENERGY STAR qualified windows and doors.

Gorell ENERGY STAR qualified windows and doors are specifically engineered and manufactured to provide superior energy efficiency and lower energy costs, enhanced home comfort, easy operation, low maintenance and beauty. World's Best is part of a select dealer network that is authorized to offer, sell and install energy-efficient vinyl windows and patio doors manufactured by 2004 to 2008 ENERGY STAR Partner of the Year winner Gorell Enterprises.
