A CFL for every socket.

Not just spirals anymore.

Look for this label at participating lighting retailers for discounts on compact fluorescent light bulbs.

Compact fluorescent light bulbs (CFLs) come in a variety of shapes, sizes, colors and brightness – even dimmables, and last 10 times longer and use 75% less energy than regular incandescent bulbs. So they're saving you money the moment you start using them. But did you know they can save you money the moment you buy them? When you see the Energy Efficiency Fund logo at participating retailers, it means you can buy CFLs at discounted prices. With such great savings, and with so many shapes and styles, there's a CFL for every socket in your home.
